Office Action Summary	Application No. 10/542,051	Applicant(s) TSUCHIYA, TAKENORI	
	Examiner J. Allen Shriver	Art Unit 3618	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see remarks section, filed June 22, 2006, with respect to the rejection(s) of claim(s) 13-15 and 24 under Takedomi (US Patent 6,988,575) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Lyles et al. (US Patent 5,836,412).

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. **Claims 13-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Lyles et al. (US Patent 5,836,412).** Lyles et al. discloses a vehicular battery mounting structure comprising a floor panel (See Fig. 1); a seat disposed above the floor panel (See Fig. 1), the seat having a back portion and a bottom portion; a battery pack (138) having a plurality of battery unit cells or battery modules in accordance with a performance of a vehicle, the battery pack being disposed between the floor panel and the bottom portion of the seat, the plurality of battery unit cells or battery modules being stacked in a longitudinal direction relative to the vehicle (See Figs. 3, 3A

Art Unit: 3618

and 3B); **[claim 14]** wherein the seat is a seat that does not have a power seat function; **[claim 15]** wherein the seat is a passenger seat or a rear seat.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. **Claim 24 is rejected under 35 U.S.C. 103(a) as being unpatentable over Lyles et al. (US Patent 5,836,412) in view of Examiner's Official Notice.** Lyles et al. discloses the vehicular battery mounting structure as set forth above, but does not disclose wherein the battery pack is formed by a lithium ion battery or a nickel metal hydride battery. Examiner takes Official Notice that it is notoriously old and well known that lithium ion and nickel metal hydride batteries have been used as a storage device on hybrid electric vehicles. It would have been obvious to a person of ordinary skill in this art to select one of these types of batteries in order to store electrical power for the electric and/or hybrid vehicle.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3618

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
